How to make an Ocean in a bottle

You will need:

water
cooking oil (we used canola, but vegetable would work well)
blue food colouring
large clear, plastic bottle (2 litre pop bottle, shampoo bottle, mouthwash bottle etc.)
funnel

What to do:

Fill approximately 1/3 of your bottle with water.
Add several drops of food colouring.
Have your child shake the bottle to disperse the food colouring.
Now, simply top up the bottle with oil. I filled ours right to the top and then popped the lid on.
Tip the bottle upside down and watch your ocean come to life.
The more you agitate the bottle, the more the bubbly the ocean becomes.
Set your bottle down occasionally to let the bubbles settle, and then start all over again.

Balloon Rocket

You will need:

Balloon
String
Straws
Cellotape

Method:

- 1) Tie one end of the string to a chair, door knob, or other support.
- 2) Put the other end of the string through the straw.
- 3) Pull the string tight and tie it to another support in the room.
- 4) Blow up the balloon (but don't tie it.) Pinch the end of the balloon and tape the balloon to the straw as shown above. You're ready for launch.
- 5) Let go and watch the rocket fly!

Make your own ice cream in a bag

You will need:

300ml semi-skimmed milk
1 tbsp caster sugar
¼ tsp vanilla extract
1kg ice
6 tbsp rock salt
2 medium zip-seal freezer bags on inside the other
1 large zip-seal freezer bag
sticky tape

Method:

- 1) Place the milk, sugar and vanilla into the doubled-up medium zip-seal bags. Close and secure with sticky tape if the seal isn't strong.
- 2) Tip the ice and salt into the large bag, then place the smaller bags inside the larger one, and seal well.
- 3) You will need to keep the bags moving for 10-15 mins to freeze the milk. Gently throw the bag from hand to hand or take turns shaking it - it's a good idea to wear gloves to keep your hands warm!
- 4) Remove the ice-cream bag, open and scoop into bowls. Sprinkle with hundreds & thousands.
